Spain faces dangers 'graver than in 1936'

From Harry Dehaya Madrid, Sept 5

General Franco has not been more aware of the dangers facing former Germany than in 1936. During that year, he was commander of the Blue Division which fought on the side of Nazi Germany in the Second World War.

In those years we have made a better Spain, but Spain finds itself today in a situation where it is facing an international crisis which is threatening to turn Spain, triumphing in the effort.

We have in our hands nearly 40 years of peace, which is the work of all Spaniards and has been safeguarded by the faithful vigil of the Civil Guard and armed forces, and backed up by the civilians of Spain, General Franco, who is 82, thanked the public today for fighting for this better Spain and the unity of the nation and spirit.

Three Spanish leftist
sentenced to death

From Our Correspondent, Madrid, Sept 12
Three members of the extreme left-wing anti-fascist Revolutionary Patriotic Front (FRAP), were sentenced to death today by a military court outside Madrid for killing a policeman. Their lawyers announced they would appeal if the appeals court would probably be held.

The three were: Manuel Antonio Blasco Olivares, 26, of the city of Seville; and two others, Pablo Mayoral Rojas and Fernando Riera Maio, sentenced to 36 and 25 years’ imprisonment respectively, The prosecution had asked for death sentences for all five.

The sentences have to be confirmed by the government of the Basque region in which the trial was held, and by the supreme court of the Basque Country. The Cabinet then has to approve them.

Two Basques also face death sentences, but the Cabinet has postponed consideration of their cases until the appeals have been heard.

The trial of the three, held in an armed regiment barracks near Madrid, lasted for only 30 minutes this morning before the Cabinet. Colonel Francisco Carbonell asked the defendants if they had anything to say to the judge. The court said no to all of them, but including to the defense lawyers too, but the judge did not.

Lawyers complained that the prosecution statement, which took two hours to read in the morning, was inaccurate and that their clients’ cases had been prejudiced by newspaper reports. "There is no evidence at all."

When the court resumed and the plea was rejected, another but considerably shorter statement, again provided by the lawyers to protest against what they said were "contradictions and a lack of evidence."

"All the defendants admitted being members of FRAP, which the prosecutor said in the opening speech of the Spanish Community Party, but they denied killing the policemen."

Two Basques were sentenced last night in Valencia. A petrol bomb was thrown at the public bank's front window, which was broken.
